

# BIOMEDICAL SOFT COMPUTING AND HUMAN SCIENCES

---

Volume 8, Number 1, December 2002

---

**Stochastic Model of Actin-Myosin System, New Stochastic Resonance Inclined Rods Model Having Double Springs (DS-SIRM)**

Hiroyuki Matsuura and Masahiro Nakano

1-13

**Artificial Neural Network based Approach for Diagnosis of Respiratory System using Model based Parameters of Maximum Expiratory Flow-Volume Curve**

C.Sathish Kumar, A.Kandaswamy and Rm.Pl.Ramanathan

15-20

**Evaluation and Improvement of Fuzzy Color-Naming System Using Neighboring JIS Modifiers**

Naotoshi Sugano

21-27

**Effect of Color Signal Sequence with Minimum Distance on Human Color Impression Model**

Naotoshi Sugano and Youichi Matsushita

29-35
