Volume 13, Number 1, March 2008

Special Issue on Contribution to 21 Century Intelligent Technologies and Bioinformatics

Special Issue

Preface

Berlin Wu	1
Association rule mining from yeast protein interaction to assist protein-protein interaction prediction	
Hung-Wen CHIU and Fei-Hung HUNG	3-6
Economic growth for China and Japan	
Guo Qing Zhao and Honggang Fan	7-12
Reliability sampling plans under truncated life tests with inverse Gaussian data	
Tzong-Ru Tsai and Cheng-Ju Wu	13-24
A study of online auction in yahoo!	
Kun-huang Huang, Tiffany Hui-kuang Yu and Hsin-yi Cheng	25-30
Decision support system for stock investment of listed companies in Taiwan	
Chia Hui Huang, Wen-ching Liou and Berlin Wu	31-36
An in-depth examination of fuzzy grey regression model for the fuzzy-input data	
Ruey-chyn Tsaur	37-44
Fuzzy-input data comparative analysis of bifurcation time series	
Cvetko J. Andreeski and Pandian M. Vasant	45-52
Modelling determinants of performance: Panel regression application	
Chih-wen Wu	53-62
Determining the disease patterns in b-code data from SLE patients	
Hen-Hong Chang, Wen-Hsiang Wu, Juei-Chao Chen and Chin-Tsai Lin	63-68

Regular Papers

View-based human motion recognition in the presence of outliers	
Md. Atiqur Rahman Ahad, T. Ogata, J. K. Tan, H. S. Kum, S. Ishikawa	71-78
Application of particle swarm optimization for EEG signal classification	
Hema C.R., Paulraj M.P., Nagarajan R., Sazali Yaacob and Abdul Hamid Adom	79-84
Frequency analysis of the heartbeat sounds	
S.M. Debbal and F.Bereks-Reguig	85-90
Fuzzy adaptive search method for parallel GA based on diversity measure	
Qiang Li and Yoichiro Maeda	91-96
Pathological recognition of difference between phonocardiogram signals of similarly morphology using the wavelet transform	
S.M. Debbal and F.Bereks-Reguig	97-102
A Study of the national medical systems in Japan — The relation between the National Medical Care Expenditure and the Number of Medical Workers —	
Ritsuyo Uchimiya, Akira Tamaki	103-108
Research of a nursing accident prevention system: Consideration of analytical methods for systematically registering nursing accidents	
Ritsuyo Uchimiya, Shinji Mochida and Ryouichi Takaue	109-114
Evolutionary strategy of P3s of Japanese monkeys (<i>Macaca fuscata</i>) viewed in higher magnified chaotic structures of dental microwear using SEM	
Teruyuki Hojo	115-118
Information for authors	120
Page format	121-122
