Special Issue on Bilevel Programming, Optimization Methods, and Applications to Economics

Special Issue on Bilevel Programming, Optimization Methods, and Applications to Economics	
Preface: Vyacheslav V. Kalashnikov	1 - 2
A Dynamic Model of Group Interactions	
S.N. ASTRAKOV and I.I. Takhonov	3 - 8
Microeconomic models of strategic interactions and their applications to wholesale electricity market	
N. AYZENBERG and M. KISELEVA	9 - 14
Trade Discount Policies in the Differential Games Framework	
I. BYKADOROV, A. ELLERO and E. MORETTI	15 - 20
A model for communication in a multi-segment market	
I. BYKADOROV, A. ELLERO and E. MORETTI	21 - 26
On a Coefficient of Cluster Differences and its Usage for Post-hoc Analysis in Clusterization	
Dronov S.V. and Dementjeva E.A.	27 - 31
Gauss-Seidel iterations in circular complex sets case	
V.S. DRONOV	33 - 36
Normal Form of Some Infinite Extensive Games and Continuity Properties	
S. HERNÁNDEZ-CASTAÑEDA and P. ZAPATA-LILLO	37 - 42
Existence of Nash Equilibrium in Infinite Extensive Games	
S. HERNÁNDEZ-CASTAÑEDA and P. ZAPATA-LILLO	43 - 48
Models of assessment of inequality and skewedness of social-economic systems development	
T. Klebanova, S. Kavun, and L. Guryanova	49 - 55
On global search for pessimistic solution in bilevel problems	
A.V. Malyshev, and A.S. Strekalovsky	57 - 61
The Quadratic-Linear Bilevel Problems Solving via Nonconvex Constraint Problems	
E.G. PETROVA, A.S. STREKALOVSKY	63 - 67
An Algebraic Method to Identify Classes of Formulas in Calculus of Predicates	
V. SEMERENKO	69 - 76
The Development of Knowledge Management System for the System of Consumer Cooperatives in Ukraine	
L. SHYMANOVSKA-DIANICH, M. DYACHKOVA, Ye. IVCHENKO, and O. HMELYK	77 - 82
Description and Generation of Combinatorial Sets Having Special Characteristics	
Yu. STOYAN and I. GREBENNIK	83 - 88
INFORMATION FOR AUTHORS	89
Page format	90 - 91
